About Me

Passionate and aspiring web designer with a talent for crafting visually appealing, responsive, and user-friendly websites. Proficient in HTML, CSS, JavaScript, React JS, and UI/UX design. Seeking an entry-level role to apply creative skills and technical expertise within a dynamic team. Thrives in collaborative environments and has a strong desire to continuously learn and grow. Skilled web design professional with a proven track record of transforming client requirements into engaging digital experiences. Adapts seamlessly to evolving project demands, achieving outstanding results. Specializes in user interface design and front-end development. Experienced in creating intuitive and visually compelling web designs that align with client goals. Utilizes industry-standard tools and technologies to deliver user-friendly websites. Possesses a solid understanding of responsive design and cross-browser compatibility, ensuring optimal performance across all platforms.

Technical Skills

- HTML: Proficient in creating well-structured web pages using HTML5.
- CSS: Skilled in designing layouts and styles for web pages with CSS3.
- JavaScript: Strong knowledge in making interactive and dynamic websites using JS.
- Bootstrap: Experienced in using Bootstrap for responsive and mobile-first designs.
- Responsive Design: Ability to create layouts that adapt seamlessly to all screen sizes.
- Adobe Photoshop: Proficient in editing and designing visual content for the web.
- UI/UX Design: Expertise in designing intuitive user interfaces and optimizing user experiences.
- SEO & Performance: Skilled in optimizing websites for better search engine ranking and speed.

Experience

2021 - 2022

Ardent Computech PVT LTD

Full Stack Web Developer Intern

As a Full Stack Web Developer Intern, collaborated with a team to develop, troubleshoot, and optimize web applications, contributing to both front-end and back-end development.

- Created interactive UI components utilizing React.js enhancing overall usability and user engagement.
- Leveraged modern frameworks like Node.js and Express.js for efficient server-side development.
- Enhanced user experience by designing and implementing responsive web applications using HTML, CSS, and JavaScript.
- Conducted thorough testing of web applications to identify and fix bugs, ensuring high-quality end products were delivered to clients.
- Optimized website performance for improved load times and increased traffic through SEO techniques.
- Collaborated with in-house web designers to create sleek and innovative UI design.
- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.
- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.

2021 - Present

Freelance Web Designer

Led major website re-factoring, improving UX, performance, and design, while collaborating with clients to meet project goals.

- Developed a travel booking website using React.js for a seamless user experience.
- Cloned the Flipkart homepage using HTML, CSS, and JavaScript to replicate its layout and functionality.
- Created a To-Do list web application using JavaScript.
- Built a portfolio website using Bootstrap.
- Designed UI based on client specs, enhancing site aesthetics with quality graphics, typography, colors, and layout.

- Version Control (Git): Familiar with using Git for version control in web development projects.
- Communication Skills: Strong verbal and written communication for effective collaboration.
- Advanced CSS: Expertise in animations, flexbox, grid, and other advanced CSS techniques.
- React JS: Experienced in building modern, interactive user interfaces with React.
- Web Development: Comprehensive knowledge of full-stack web development processes.
- WordPress: Proficient in building and customizing WordPress websites.
- MS Word: Skilled in creating, formatting, and editing documents in Word.
- MS Excel: Expertise in data analysis, formulas, and spreadsheet management.
